## Impressive Funeral Services For Wayne Dahl

Many relatives and friends were present at the Second Ward Church recently to pay their last respects to Wayne Dahl, the son of Mr. and Mrs. Cliff Dahl who was the victim of a tragic drowning accident. The large floral offerings bespoke the affection held for this young man and family.

Paul Fairbanks, who was in charge, announced the opening song 'O My Father' sung by the Third Ward Choir with Joe McLean conducting and Emma Dahl organist. After the invocation offered by Gerald Melchin, Lyman Jacobs spoke, referring to the work done by Wayne in the Scout movement and Grain Club. Gen Hawkins, Laura Watson and Velma Bigelow sang 'Lead Me Gently Home', after which Hazel Fairbanks rendered an organ solo, 'Sometime We'll Understand' followed by a few remarks by Jim Heninger, a close friend of the deceased's. 'When We Come To The End of a Boy Scout's Day' was sung by Kay Salmon, at the conclusion of which Melvin King expressed words of comfort to the family. The choir sang 'Abide With Me' before the Benediction was offered by Karl Salmon.

Pallbearers were Larry Dahl, Rulon Fairbanks, Dean Garner, Billy Fairbanks, Farrel Meeks and Ray Stevenson. President John Allen Dedicated the Grave.

Wayne, who was 19 years and 8 months to the day at the time of the accident, had motored to Magrath with his parents to visit at the home of his uncle, Mr. and Mrs. Paul Taylor. After some hesitation he accompanied his uncle and two cousins to the Jensen Dam to fish; after catching one fish he had gone back again, this time losing his footing on the rocks and slipping in below the spillway. As he had never been allowed to swim due to an ear infection, he was unable to save himself.

Left to mourn his passing are his parents and three brothers and five sisters; Reed of Edmonton, Garth, Marvin, Eva, Linda and Lois of Raymond, Eileen of Cardston and Louise who is on a mission at Polacca, Arizona.

Mr. and Mrs. Kenneth Hatch and four daughters of Randolph, Utah were guests at the home of Mr. and Mrs. Cliff Dahl while in town for their nephew's funeral.

Miss Carole Larsen arrived home on Wednesday from Vancouver.

Maestro And Moppet

This obviously impressed little girl has just attended her first concert of symphonic music, and seems to be taking interest in what conductor Alfred Strombergs has to say about the workings of a clarinet. The picture was taken in Nova Scotia where Strombergs has conducted the Halifax Symphony in twenty concerts this season in schools throughout the province - a series jointly sponsored by the schools and the Nova Scotia Department of Education. The Canadian Broadcasting Corporation is currently giving national recognition to the praiseworthy efforts of music groups such as the Halifax Symphony, through a series of broadcast concerts on the CBC's Trans-Canada network, in the Canadian Symphonies series.

Coronation Bound : En-route to London where they took part in the coronation parade and other special events arranged in connection with the coronation celebration are 46 Royal Canadian Mounted Police horses. Canadian Pacific rail and steamship fac-

ilities combined to handle their unusual transportation needs. Accompanied by a 10-man party of Mounties in charge of Staff Sergeant C. W. Anderson of Ottawa, the horses are shown (bottom) being loaded aboard four palace horse cars at the C.P.R.'s Ottawa West

Yards while top photo shows loading operations aboard the Canadian Pacific's Beaverburn at Montreal harbor where the horses were placed in special padded stalls with sufficient room provided in the between decks area to allow daily exercise of the horses.

## An Open Letter From The Cemetery Board

Once again we must draw to your attention the need of financial assistance for the Temple Hill Cemetery.

We, of the Cemetery Board, find that unless help is forthcoming our past efforts will be wasted. Due to conditions beyond our control, no money was realized from a Concert last winter, and as we recently had to purchase some equipment, our funds are exhausted.

If each plot owner would contribute the small fee of \$5.00 a season, we could continue to keep the cemetery green and beautiful. Lawns will be seeded just as fast as equipment and finances will allow.

We are depending on you to give us your support.

## Dare Devils Here Thursday, July 9

The climax to the thrilling Congress of Canadian Dare Devils show, which will appear here at the Exhibition Grounds, on Thursday July 9, under the sponsorship of the Legion and Sugar City Motors, is the shooting of a 1953 Ford convertible from the barrel of a gigantic cannon.

Brand new and offered only this year, two of the show's top performers, steel-nerved Bobo Canup and Buttercup Pearce, are young men who

flirt with death.

Canup drives the car which roars down the track at 55 mph to enter the cannon breach with less than four inches of clearance on either side, and with the aid of atomic-like explosions the car is speeded up an extra 15 mph so that it will be propelled 80 feet through space and land on a run-down ramp.

Adding spice to the act—and added danger—Pearce will travel hub-to-hub

around the track with Canup., by-passing the cannon while passing directly underneath the flying car driven by Canup.

This is considered the all-time high in skill, precision, courage and originality in the thrill show world.

A total of 25 acts will be presented by a cast of 30 performers with glistening white 1953 model cars adding to the color of the Canadian produced spectacle.

## Baker Is Pool Manager

A.T. Baker of Nemiscam, has been appointed manager, of the Alta. Wheat Pool. In making the announcement, Ben S. Plumer, chairman of the board of directors, stated:—

"Shortly after the passing of R.D. Purdy, former manager, T.E. Oliver was appointed acting manager, of the Alberta Wheat Pool. Because of Mr. Oliver's health and the heavy responsibilities involved the board of directors have decided to appoint A. T. Baker manager of the organization. Mr. Oliver will continue as assistant to Mr. Baker.

Mr. Baker has been a director of the Alberta Wheat Pool since 1945 and vice-chairman during the past three years. He is a young man whose farm background, business training and experience in Pool affairs equip him for the position.

Albert T. Baker was born in Illinois and is the eldest son of Perren Baker, who was minister of education in the U. F. A. government of Alberta. The Baker family came to Alberta in 1910 when the homestead rush was on and the father filed on land at Nemiscam, which is on the Lethbridge—Manyberries line of the Canadian Pacific Railway, about 60 miles southwest of Medicine Hat.

Albert T. Baker now operates the family farm which has grown to nine sections of land, is fully mechanized and has thousands of acres under crop each year. He was educated at the local school at Nemiscam, at high school in Edmonton and at the University of Alberta from which he graduated in 1928, after which he took over the management of the farm. He was married in 1933 to Agnes Phipps, of Cochrane, and they have two children—both girls.

Mr. Baker, Sr., took an early interest in farmer movement in Alberta and was elected member of the legislature for Cypress constituency when the farmer government gained power in 1921 election. He served as member for Cypress until 1935. Albert followed the example of his father in interesting himself in farmer movements and was elected delegate to the Alberta Wheat Pool in 1941. In 1945 he was elected director for the Lethbridge division in succession to Christian Jensen of Magrath, who served in that capacity for twenty-two years.

## BEAUTIFUL FLOORS WITH TILE

Rubber tile has long been recognized by architects and builders as an exceptionally beautiful and durable floor, says Miss Caroline Judson, Extension Home Designers, Alberta Department of Agriculture. It is available in many rich colours and the tile makes it possible to have individuality in pattern and color scheme. The colours are guaranteed not to wear off since they penetrate to the back of the tile.

The lustrous sheen of rubber tile adds to its handsome appearance. The plate finish prevents dirt from being driven into the floor. Some rubber tile are now being factory waxed and will not need much maintenance after installation.

Rubber tile is extremely resistant to indentation. Furniture loads up to 200 pounds per square inch will not mark the surface. The tensile strength reduces the possibility of cracking under impact of through aging. Rubber tile is comfortable underfoot and minimizes noise caused by footsteps. This helps to reduce fatigue.

Asphalt tile is a brittle, hard, smooth surfaced tile. Unless it is properly installed the tiles will crack and chip badly, Miss Judson says. The hard surface makes it more tiring to walk on than a resilient tile (rubber, linoleum). It is available in many colours and will provide an attractive floor covering at a lower cost than rubber tile. It is the only floor covering recommended for basement floors because it is not affected by moisture.

Asphalt tile is a thermoplastic material and is subject to indentation especially in warm weather. All chair legs and sharp objects should rest on furniture rests.

There is an old Roman proverb that says, "A learned man has always wealth within himself."

The Japanese Government has decided to experiment with Russian dandelions as a source of rubber. The newspaper Asahi said the trial program would be located at Hokkaido, Japan's northernmost and least developed island.

The rubber plant was reportedly discovered by a Russian expedition 20 years ago in the Tianshan Mt. Range inside western China's Sinkiang Province. Since then the Communists have claimed success in cultivating dandelion farms for rubber extraction, Asahi noted.

T.C. Haliburton: 'Nothing improves man's manners like an election.'

Mary the tiny student pianist who had been asked to play at the monthly meeting of the local musical club was most happy to do so. The applause which followed her selection proved that it was enjoyed.

She came to the front of the stage and gave a deep curtsy. Then smiled and said, "I hope that means encore because I have one ready."

**QUESTIONS and ANSWERS**

QUESTION: How does cancer spread through the body?

ANSWER: Cancer spreads in 3 ways (1) Cancer cells may grow directly from one tissue to another; (2) They may spread through the lymph streams; (3) The blood stream may carry cancer.

LETHBRIDGE, ALTA.

Little David who lived in Cambridge England liked automobiles. The boy noticed that some of the cars driving past his home had the letter 'L'. He was told that the sign meant one who was learning to drive, 'Learner'. One day his uncle John came for a visit. On his car were the letters 'GB' (Great Britain). David looked for an 'L' but could find none. Then he gazed at the 'GB' and asked his uncle, 'Did you ever have an 'L' on your car?' "Yes, once," replied uncle John. David then turned to his mother and said: 'I guess Uncle John is getting better.'
